Amendment and Response to Office Action dated June 3, 2004 (Amendment C)
June 28, 2004

REMARKS

Following amendment as requested herein, the following claims are pending in the present application: Claims 1–3, 42, 43 and 115.

Amendment of claims

By the present amendment, Claims 150–158 are cancelled without prejudice. Applicant notes that these claims are not presently under rejection and their cancellation is requested only for the purpose of placing the application in better form for further examination, as explained below.

No new matter is introduced by the present amendment. No changes in inventorship are believed to result from the present amendment.

Election/restriction requirement under 35 USC §§121 and 372

By the present Office Action, restriction to one of nine groups of claims, relating to different types of cancer, is required.

Applicant appreciates the Examiner's courtesy during a telephone call with the undersigned on June 24, 2004. It was clarified in that call that the present election/restriction requirement, which is very burdensome on Applicant, especially in view of an earlier restriction in the same application, had been precipitated by the addition of new claims 150–158 in a previous amendment (Amendment B). The Examiner indicated that the election/restriction requirement would be withdrawn if claims 150–158 were cancelled.

Applicant accordingly requests withdrawal of the election/restriction requirement in light of cancellation herein of claims 150–158.

Should any issues remain, the Examiner is invited to call the undersigned at the telephone number given below.
